

***From Secret to Success* author, Jackie Simmons knows:**

Being a Secret Can Suck Your Life & Your Business Down the Drain!

Removing the “Cloak of Invisibility” from her business skyrocketed Jackie from Secret to Success in 7 Months. BUT it didn’t start out that way.

You know - there’s nothing like being an entrepreneur / business owner to stir up an emotional mess.

For Jackie, being a single parent at the same time brought her smack up against mental and emotional blocks that shut her down every time she made progress. These inner saboteurs sat on her phone so she couldn’t make sales calls, and distracted her so she couldn’t focus and finish projects. They trashed her hard work and torpedoed her relationships.

It was through learning to permanently resolve her own blocks that the “Total Success Mindset” system was born. Jackie used the system to help herself, and then her clients, to become Calm, Focused & Profitable.

Since the 1980s, Jackie Simmons has been helping small business owners and entrepreneurs tame the inner saboteurs that trample their profits and productivity and suck their sanity down the drain.

These inner saboteurs show up as overwhelm, ineffective communication, lack of focus, and dismal sales. They sabotage productivity and can make it seem like there’s no way to be successful. The overwhelm alone can drain even the most seasoned entrepreneur, business owner, or manager.

Clients and Audiences grin, giggle and “GET IT” as Jackie guides them through simple attitude shifts that produce higher profits, consistent actions, better teams, and happier relationships.

Through her speaking and programs, Jackie shares the secrets of a “Total Success Mindset” ... the quickest, most reliable path to becoming the Calm, Focused, Profit-Making Success that you were always meant to be.

**If you’re blocked in any area of your life, it’s time to:
Find it, Fix it, and Get On With it!**
